

Mehmet Buğra Şahinoğlu

Senior Cybersecurity Analyst | Incident Response | Digital Forensics
mehmet@bugrasahinoglu.com | bugrasahinoglu.com | github.com/bugrasahinoglu

Experience

Kuveyt Türk Participation Bank | 10,000+ endpoints

Senior Cybersecurity Analyst

June 2024 – Present

Cybersecurity Analyst

June 2022 – June 2024

- Investigated memory, disk and network artefacts to uncover activity and misconfigurations missed by existing detections, coordinating remediation with security and system-owner teams
- Managed threat intelligence and attack surface management from vendor evaluation to daily operations, completing 4 proof-of-concept cycles across these areas and digital forensics
- Designed and facilitated 4 incident response tabletop exercises in 2025–2026, including a macOS scenario for subsidiary IT teams, documenting detection gaps and procedural improvements
- Triageed 800–1,750 assigned alerts monthly and investigated high-severity incidents through closure
- Mentored new analysts to independently triage and investigate alerts using response playbooks

Logsign

SOC Tier 2 Analyst

June 2021 – May 2022

SOC Tier 1 Analyst and Shift Team Leader

Jan 2021 – June 2021

SOC Tier 1 Analyst

Feb 2020 – Jan 2021

- Co-led detection tuning that cut daily alerts by approximately 90% (60,000 to 5,000–6,000) for an enterprise customer through duplicate suppression and correlation threshold refinement, maintaining detection coverage
- Led 3–4 analysts and handled L2 escalations for 4 round-the-clock shift teams serving approximately 20 enterprise tenants, managing schedules, workloads and analysis quality
- Built response playbooks by alert type and standardised customer notification templates across the SOC

Publications and Open Source

A Fourth Door: Polygon EtherHiding macOS Campaign

Sept 2026

- Reconstructed 129 days of on-chain command-and-control rotation history for a macOS campaign
 - Documented an unreported delivery vector using compromised legitimate sites and 3 unpublished indicators
- github.com/bugrasahinoglu/etherhiding-tools

Skills

Security: Incident response, threat hunting, detection engineering, MITRE ATT&CK

Tools: Splunk, Cortex XSOAR, Cortex XDR, Carbon Black EDR, Vectra NDR, PowerShell

Forensics: Volatility, Autopsy, FTK, Wireshark, REMnux, Windows internals, macOS incident analysis

Certifications

INE Security: eCDFP (2024), eCTHPv2 (2023), eWPTx (2026), eWPT (2025)

Education

Namık Kemal University | B.Sc. in Electronics and Communication Engineering

2019

Languages

English: Professional working proficiency (TOEFL iBT 89/120), Turkish: Native, Spanish: B1
